

Mini-palletizer cubes

Print at 100%. Cut the solid outline, fold the dashed lines, tape the edges into a 20 mm cube. (Page 1 of 2, four cubes.)

Mini-palletizer cubes

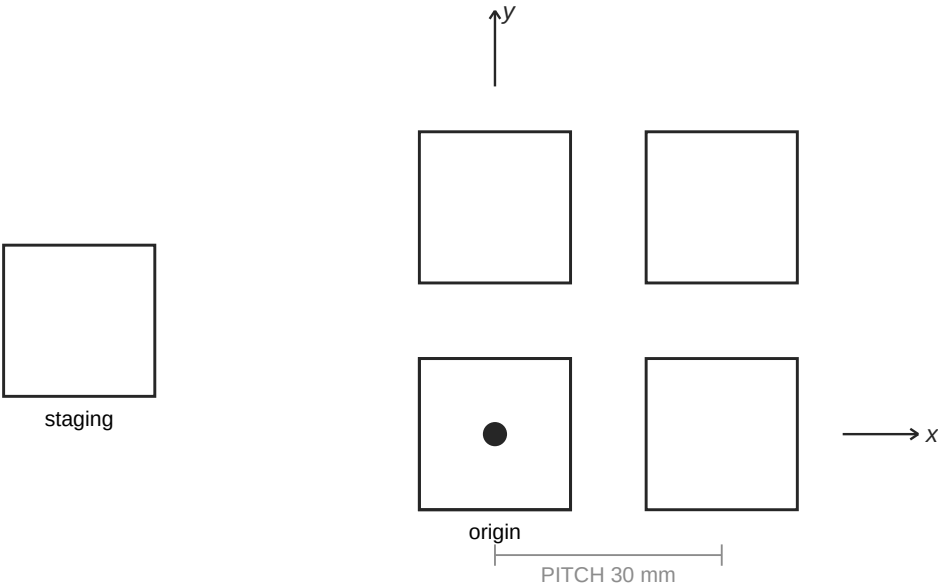

Print at 100%. Cut the solid outline, fold the dashed lines, tape the edges into a 20 mm cube. (Page 2 of 2, four cubes.)

Mini-palletizer pallet mat

Print at 100%. Place under the arm and align the x and y arrows with the arm's axes.

In Phase 3, teach the arm the staging square and the origin square.

Cells and the staging spot are 20 mm squares; one cube footprint each.
